

Philip L. Patillo

Philip.Patillo@gmail.com | (919) 229-5542 | linkedin.com/in/PhilipPatillo

IT-focused professional with four years of leadership, process improvement, and data analysis experience at a Fortune 500 retailer, combined with hands-on technical support and application development experience. Skilled at analyzing operational and financial data to drive measurable improvements, coaching and developing teams, and building strong stakeholder and customer relationships. Background includes IT help desk support and cybersecurity coursework.

TECHNICAL SKILLS

Languages: Python, JavaScript, C++, R

Data & AI: SQL, data modeling, data visualization, statistical analysis

Security: RBAC, OAuth 2.0, RSA cryptosystems, threat detection, secure file handling, IAM concepts, network fundamentals

Cloud & DevOps: AWS S3, GitHub Actions (CI/CD), cloud deployment fundamentals

Web & Tools: Django, HTML, CSS, Git, GitHub, ArcGIS, Excel, Microsoft Office

Soft Skills: Team leadership, cross-functional communication, customer-facing problem-solving, stakeholder presentations, coaching & training

CERTIFICATIONS

CompTIA Security+ | In Progress

WORK EXPERIENCE

Freelance Mobile App Developer, American Surgical Arts (Client)

May 2026 - Present

- Built a cross-platform patient recovery tracking app from scratch as sole developer using React Native, Expo, React Navigation, and Context API.
- Managed a PR-based GitHub workflow, including code review and merging contributions from a second developer.
- Scoped and defended architecture decisions directly with a non-technical client, including choosing a standalone login system over a complex integration with existing practice software.
- Handled full freelance engagement independently: client communication, scope negotiation, timeline management, and invoicing.

Wegmans Food Markets

Charlottesville, VA & Chapel Hill, NC

Department Assistant Manager

Aug 2025 - Present

- Manage a team of 25, overseeing performance coaching, daily operations, scheduling, and issue resolution in a high-volume environment.
- Track operational metrics, inventory, and workflow improvements while partnering with store leadership on process and culture initiatives.

Management Intern (full-time development program)

May 2024 - Aug 2025

- Analyzed labor, operational, and financial data to optimize staffing across seven departments supporting approximately 140 employees.
- Designed and presented data-backed recommendations to store and corporate leadership, improving coordination and departmental efficiency.

Sales Optimization Initiative | Summer 2025

- Increased featured-product sales by 40% by analyzing inventory performance data, identifying underperforming SKUs, and redesigning merchandising strategy.
- Presented findings and recommendations to store and corporate leadership; initiatives were adopted across multiple departments.

Front End Associate (Part-Time)

Dec 2020 - May 2024

Fidelity Investments

Durham, NC

Intern

May 2022 - Aug 2022

- Built financial models in Excel to evaluate investment scenarios, then defended a structured stock portfolio to leadership, translating quantitative analysis into business recommendations.

Durham Public Schools

Durham, NC

IT Help Desk

Jan 2021 - Jun 2021

- Provided first-line support for hardware, software, and network issues across a multi-site school district.
- Imaged, configured, and deployed devices while improving troubleshooting documentation and support workflows

PROJECTS

Secure Full-Stack Web Application | Django, SQL, AWS S3, GitHub Actions |

- Deployed production-ready SaaS app with Google OAuth, role-based access control (RBAC), and AWS S3 for secure cloud storage, meeting accessibility and baseline security standards.
- Automated CI/CD pipeline using GitHub Actions, cutting manual deployment steps and ensuring consistent test execution across team commits.
- Led agile sprint planning to translate user and business requirements into prioritized features across a multi-person team.
- Implemented secure authentication and authorization workflows aligned with industry security best practices.

RSA Encryption System & Key Monitoring Tool | Python |

- Built a working RSA cryptosystem from scratch: key generation, encryption, decryption, and cryptographic validation.
- Developed a Python monitoring tool to capture, timestamp, and log security events using secure file handling practices.
- Strengthened understanding of cryptography, secure key management, and security-focused software design.

GIS Coastal Risk Mapping | ArcGIS |

- Analyzed large coastal datasets in ArcGIS to produce evacuation planning maps identifying at-risk populations for emergency response planning.
- Processed and analyzed large datasets to support data-driven emergency planning decisions.

EDUCATION

University of Virginia

Charlottesville, VA | May 2026

Bachelor's Computer Science, Focal Path: Cybersecurity | Minor: General Business (McIntire)

- Relevant Coursework: Data Structures, Algorithms, Artificial Intelligence, Software Design, Cybersecurity, Data Ethics, Statistics, Data Science, Business Finance & Management
- Study Abroad: SLU-Madrid, Semester in Spain

LEADERSHIP, HONORS & ACTIVITIES

Leadership: Sustainability Chair, Sigma Nu (2023-2025); Event Leader, Outdoor Club (2022-2026); HooHacks (2023-2026); Computer & Network Security Club (2025-2026)

Volunteer: Urban Ministries of Durham, Food Pantry & Meal Service (2012-Present) 10+ years of consistent community service, including volunteer shifts through college; UVA Corner Cleanup, Sustainability (2022-2026)

Honors: President's Volunteer Service Award; WorkKeys National Career Readiness Certificate (Platinum); Durham Mayor's Award
